Subject : CRM Facilitators

Dear Colleagues,

It is a known fact, proven through studies and occurrence data that 'Human Errors' have been a significant contributor in aviation accidents. Hence, to manage the outcome of operations and make the system a safe and resilient one, we shall look into strengthening the components of the system, one being the human element, and how we manage ourselves and resources within the system. Crew Resource Management (CRM) is a tool that one can utilize to enhance performance for safer outcomes and PIACL is looking into supporting the execution of CRM. So, along with other aspects the training also needs to be supported by increasing number of facilitators.

PIACL requests interested active pilots - Captains' applications for being part of the CRM workshop management team as CRM facilitators, on condition that the individuals shall be interested to be part of the team for atleast next five (05) years, as the development process takes time and resources.

All those interested are requested to email initial application to CRM Coordinator's email address crm.hf@piac.com
